

FIRSTAUTH

8th International Conference on

INSPECTION, APPRAISAL, REPAIRS AND MAINTENANCE OF STRUCTURES

18 – 19 December 2003, Singapore

Table of Contents

List of Papers / Authors

Page

KEYNOTE PAPERS

Electrochemical corrosion protection in Japan

T. Miyagawa*, I. Funakawa, S. Ushijima and N. Otsuki

The causes of structural defects in low rise buildings in the United Kingdom associated with ground movement

C. Page*

SPECIAL SESSIONS PAPERS

From deterministic to probabilistic way of thinking in structural engineering

J. Brozzetti, K.K. Phoon* and P. Marek

Hybrid Identification method for shear buildings with unknown seismic input: Experimental Investigation

J. Chen*, X. Zhao, Y.L. Xu and J. Li

Inspection and strengthening of the Wulongjiang Bridge

B.C. Chen*

Forensic engineering investigations – case studies

I. Dumitru* and V. Paraschiv

The structural appraisal and renovation of St John the Baptist Church in Coventry United Kingdom

P. Ehinlaye* and C. Page

Lessons from structural failures and their importance and usefulness in reducing substantially the

frequency of failures

L. Grill*

Reliability assessment of semi-rigid joints using eurocode and SBRA method

V. Krivy, P. Konecny* and P.Marek

Structural design using simulation-based reliability assessment

P. Marek* and K.K. Phoon

Durability assessment of steel structures using SBRA method

P. Marek*, D. Pustka and P.Konecny

SBRA method – selected applications and new achievements

P. Marek*, M. Gustar, D. Pustka and P. Konecny

The assessment of natural and technological risks caused by the development of damage to ancient structures in Central Asia

N. Mavlyanova*

List of Papers / Authors Page

The Structural Appraisal and Renovation of St Guthlacs Church, Stathern, United Kingdom

C. Page*

A Report on Euro-SiBRAM-2002 Colloquium

K.K. Phoon, P. Marek*, A. Haldar and M. Gustar

Dynamics based performance evaluation of existing highway bridges

W.X. Ren*

Multi-sensor data fusion and its application prospects in structural health monitoring

T. Wang* and J. Li

Empirical mode decomposition for structural damage detection

Y.L. Xu* and J. Chen

Parameter Estimation of weakly nonlinear structural systems

X. Zhao* and J. Li

Hybrid identification method for shear buildings with unknown seismic input: Theoretical Investigation

FIRSTAUTH

X. Zhao*, Y.L. Xu, J. Li and J. Chen

Structural damage detection by measured frequency change: Analytical and experimental study

H.P. Zhu*, Y.L. Xu and J. Chen

Ambient vibration testing on a large span cable–stayed bridge

Z.H. Zong*, W.X. Ren and Xue–Lin Peng

TECHNICAL PAPERS

A vibration based model that rates bridge structural deterioration in a Bridge Management System

C. Ackerman* and W.J. vd M. Steyn

Investigation of corrosion behaviour and grouting degree of sheath–grout–tendon element by electrochemical method

L. An*, T. Yamamoto, A. Hattori and T. Miyagawa

Experimental investigation and determination of ultimate shear strength of reinforced beams which have been strengthened with steel and CFRP plates

M.H.A. Beygi, J. Vaseghi Amiri*, H.E. Nejad

Case study on condition monitoring of concrete highway bridges in India by non–destructive testing technique

P.P. Biswas*, S. Saraswati, S.K. Ghosh and G.C. Mondal

Technical guidelines on the use of fibre reinforced polymers for strengthening of reinforced concrete structures

Yogesh Chhabra*

Testing, modeling and analysis of an iron railway bridge of the nineteenth century

M. Ferraioli, P. Malangone and A. Zambrano*

Earthquake response analysis of reinforced concrete column using damage model

X.L. Gu*, Z. C. Wu and T. Chen

Stress measurement in prestressed concrete structures

G. Hovhannessian and T. Le Diuron

Latest developments in acoustic monitoring and visual inspection management

G. Hovhannessian, T. Le Diouren and J. Elliott

List of Papers / Authors Page

Life cycle cost estimation case study for bridge superstructures located near splash zone along the coastal line

S. Izumi*, Y. Morita, T. Ihaya, and S. Inoue

Behaviour of corroded and repaired PC piles for landing stage

C.H. Jeng* and T.C. Lin

Properties and performance of laterite building stone

A.K. Kasthurba*, M.S. Mathews, S. Manu and A. Hema

Condition rating method for performance evaluation of existing RC Bridges

Y. Kawashima, Y. Yamanaka*, Y. Yonezawa and H. Morikawa

Structural damage assessment arising after natural disasters and accidents and structural strengthening methods

F. Rangelova* and D. Panichkov

Ultrasonic characterization of interface layers in a fibre–reinforced composite

N. Rattanawangcharoen* and A.H. Shah

Investigation of concrete quality of collapsed – heavily damaged structures during the Marmara earthquake

M. Saribiyik*, M. Sumer, S. Firat and F. Aydin

Influence of interfacing conditions on efficiency of strengthened R C columns

A. Tahir* and R.A. Goraya

Deformation follow–up capability of tile–based mortars cured under cyclic wetting and drying

K. Tanigaki* and K. Saigusa

Rapid visual inspection and structural evaluation of timber truss of historic buildings in Taiwan

P.H. Tsai*, C.J. Chen, M.F. Hsu and Y.S. Yeh

Experimental investigation of flexural behaviour of strengthened R C beams using GFRP and steel plates

FIRSTAUTH

J. Vaseghi Amiri*, M.H.A. Beygi and S.H. Hossinzadeh

The optimum sample size of on-site inspection for existing structures

Y. Xu, W.P. Zhang and X.L. Gu*

Strengthening with CFRP sheet for flexural member deteriorated by reinforcing steel corrosion

T. Yamamoto*, A. Hattori and T. Miyagawa

Retrofitting of slab-on-girder steel bridges

S.M. Zahrai* and M. Bruneau

Index of Authors

RB Conference Awards

Contents of Previous Seven Conferences (held in 1989, 1992, 1994, 1995, 1997, 1999 and 2001)
